Great book with great insights

By Tim B

I am a bit of a "self help" junkie. I love to read books about improving myself, relationships, psychology, getting along with others etc. A lot of relationship books just rehash ideas from "How to Win Friends and Influence People" or "Men are from Mars" and don't really offer anything new or unique. This book does. It is very well written, and has some really great and original ideas. I am confident that this book can help you and your marriage, if you are committed, and follow the guidelines in the book. Highly recommended!
