From Library Journal

Himself one of the most prominent modern African American artists, Bearden conceived this landmark volume, treating more than 50 of his predecessors and contemporaries, before his death in 1988. Henderson has ably carried on his mission in a lavishly illustrated book containing 250 black-and-white and 61 color reproductions. Opening in the 18th century with Joshua Johnston, the authors go on to examine the work of Robert S. Duncanson, Henry O. Tanner, Aaron Douglas, Edmonia Lewis, Jacob Lawrence, Auguste Savage, Ellis Wilson, Archibald Motley, Alma Thomas, and others born before 1925. Their lives and careers, which often involved overcoming racial barriers, are portrayed against the backdrop of artistic, social, and political events; black Renaissance and Depression artists receive the most attention. This thoroughly researched conspectus is a solid choice for U.S. art and history collections.

The late Romare Bearden, a premier African American artist in his own right, devoted 15 years to researching and writing this magnificent study of the lives and achievements of 36 significant African American artists born prior to 1925. He and longtime friend and coauthor Henderson were motivated by frustration over the lack of literature on black artists. Through great perseverance and determination, they managed to track down forgotten artwork, piece together vivid biographical portraits, and conduct interviews with surviving artists, who, in spite of their stature and longevity, had never before been interviewed. As Bearden and Henderson set the scene, historically speaking, for such artists as Robert S. Duncanson, Edmonia Lewis, and Henry Ossawa Tanner, they expose the degree to which racism limited opportunities for black artists. The life stories of the artists associated with the Black Renaissance during the 1920s--such as Aaron Douglas; Archibald Motley, the first painter to boldly celebrate urban African American society; and sculptor and influential mentor Augusta Savage--are recorded with consummate insight, as are accounts of the giants of the Depression era, Beauford Delaney and Jacob Lawrence. Richly illustrated and written with resounding empathy and pride, this is a major contribution to the literature on African American history and

to the annals of American art. Donna Seaman

nice book

By A Customer

i had a class in college that used this book as a text book. i enjoyed it then, but it wasn't until later that i really had a chanceto sit down and enjoy it. information is good and the pictures are plentiful. this is a very nice book for anyone interested in african american art and culture. another book that i would like to recommend is called souls grown deep: african american vernacular art of the south, volume one. i bought it at an art fair in new york in late january. i'm not sure that it has been released nationally. i've contacted amazon in an attempt to get more info. i have it so i know it is out. this type of book (souls and the history...) are too few and far between.

## A Priceless Treasure

By KMWalker

This is quite simply one of the best books I've ever read. As an avid reader, I do not make that claim lightly. What makes this book so remarkable is how Bearden and Henderson both bring the artists to life and give you a deep appreciation for their work.

No other book I've read on the arts has left me similarly breathless. While many of them have been quite competent at explaining things like "Impressionism," "The Renaissance," or "The Harlem Renaissance," none have so beautifully balanced an explanation of the artist and of the artist's work. By bringing the people to life, Bearden and Henderson have brought the art to life. They have made a priceless contribution to our understanding of African-American artists, their work and the challenges they had to overcome to pursue their passion.

This book is a must-have. It will deepen your appreciation of art and of the contributions that African-Americans have made to it.

Art Smart

By Gertrude Black

My nephew checked out a copy of this book from the library when I was helping him with a school project. I loved it right from the start! I ordered a copy of it for my son who is a young artist. My son has a "Ribbons and Bows, Inc" youth art business and was a YesCarolina 2011 Young Entrepreneur of the Year. He will enjoy this book for many years to come!
