Carol Stack's *All Our Kin* is the best analysis I have seen of family and kinship organization in a ghetto black community in the U.S. It shows how inadequate most writings on the subject have been, even by social scientists, and demonstrates the importance of the anthropological approach which emphasizes living with people, learning their way of seeing things, and learning how to operate acceptably in accordance with their standards for dealing with one another. Her book should be widely read by the general public and is ideally suited for use in introductory anthropology and sociology courses.

great ethnography!

I bought this book for a class a year ago, and must say this is a good look at a more modern kinship structure than the ones written by Mintz. However, you must remember that the research/p.o.i. work was done in the 80's (or around then), so some of the tones and outlook may sound dated. Still a good book. Enjoyed it and it's a very short ethnography so very quick read!
