Bridenapping? That ancient tradition where an Alpha grabs a human woman and brings her back to his pack to dominate and pleasure her? It's all the rage now. Models and movie stars are vying to be bridenapped, and there's nobody more sought after than handsome Alpha Jarrod Shaw of the Magister Pack.

Jarrood's been ordered to bridenap a wealthy socialite – but Jarrod's as Alpha as they come, and he's never been one to take orders. He's got his eye on shy, chubby Mary Farraday, the secretary for Mated And Matched. When the bridenapping goes wrong, all hell breaks loose, because the Magister Pack is hiding the darkest of secrets. Soon Mary finds she can't tell the difference between her closest allies and her most bitter enemies, and if she can't figure it out before the full moon, she may lose both her love – and her life.

Wanted to like the story so much more but it fell short

By Gurl-N-Digo

The idea of the story was a good one but it just fell short. The main character Mary throughout I don't know maybe 90% of the book she refused to believe that the Alpha Jarrod was really in love with her and really wanted to marry her, she allowed her sister to bully her her whole life even after she found out the truth there was no confrontation there was, no closure on the situation between her and her sister and her mother. They never mentioned any type of closure on this company in Europe that was supplying them with babies how did they even get shifter sperm for the making of these babies is this happening in any other packs, were they in on this deceit. There were just so many loose ends to the story and I really really wanted to like it but I just couldn't really fall in love with these characters. Jarrod wasn't really being a good alpha how is it that you are Regent Alpha which means an alpha in training or Alpha next in line and you aren't paying attention to what's happening in your pack you aren't listening to any of the concerns that the women are having, you didn't question why the maternity ward was not connected to the original hospital, why it was so far away in the woods and being guarded why men weren't allowed inside to be with their mates while they're giving birth, he didn't question why before his uncle took over the pack why this was never a rule about the mage having to bless the child or why the mage had to take the child away from the parents for an hour I just feel like if you are an alpha and you're going to be taking over your pad you are so proud of you would pay more attention to them instead of just saying oh well we can't do anything about this right now so let's go have dinner and have sex seems like the priorities were completely off and all the women didn't have a backbone why wouldn't you stand up end make a big fuss about how this is not your child just a lot of unanswered questions in weak willed characters I just don't understand very very disappointed

good read

By Pacycrochets

I liked this book, and will read the next one in the series. In a couple of spots I found myself wanting to page forward, funny thing is I'm not sure if it was because I felt a little fatigued with the story line or I really wanted to see what was next. In the middle of the book I just felt little ambivalent about this book. But I completely consumed the book in one sitting and when I finished I found that I had really enjoyed it. It was one of those books where I wanted to immediately start reading the next book in the series.

Errors are becoming a common occurrence with this author.

By Bozana

Good book.. Composition could be bit better, as I got a little bit lost and some bits needed expanding upon. Needs editing to fix spelling mistakes, punctuations and put in some extra paragraphs, here and there. I do like this author, but I do detest errors, which does detracts from the storyline, and interrupts the flow, when you're reading it. Dear Author, please do consider giving this to a friend/friends to read and to edit this book (and others), before publishing it, as this is becoming a common occurrence in your books in regards to errors etc...
