Financial Accounting helps students “nail” the accounting cycle!

Financial Accounting features the ‘accounting cycle’ up front in the text in order to increase success and retention later on. The concepts and mechanics students learn in the critical ‘accounting cycle’ chapters are used consistently and repetitively—and with clear-cut details and explanations—throughout the remainder of the text, thus minimizing confusion.

MyAccountingLab for Financial Accounting is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams—resulting in better performance in the course—and provides educators with a dynamic set of tools for gauging individual and class progress.

¿

## Teaching and Learning Experience

¿

This program presents a better teaching and learning experience. Financial Accounting, Tenth Edition will:

- **Personalize learning with MyAccountingLab:** MyAccountingLab provides instructors with a rich and flexible set of course materials, along with course-management tools that make it easy to deliver all or a portion of your course online.

- Use consistency, repetition, and a high level of detail when teaching core accounting concepts.
- Teach with a better coverage of the accounting cycle from start to finish. The text covers a wide range of topics that prepares students for their field.;
- Reinforce learning by using exercises: End-of-chapter, analytical, and Challenge Problems allows students to review the material and gain a better grasp of the text.

Note: You are purchasing a standalone product; MyAccountingLab does not come packaged with this content. If you would like to purchase both the physical text and MyAccountingLab search for ISBN-10: 0133768775/ISBN-13: 9780133768770. That package includes ISBN-10: 0133427536/ISBN-13: 9780133427530 and ISBN-10: 0133437280/ISBN-13: 9780133437287.

MyAccountingLab is not a self-paced technology and should only be purchased when required by an instructor.

A Confusing Way of Presenting the Material

By Olivia

I was nervous about starting a graduate level accounting class, so I bought two other financial accounting textbooks at used bookstores in order to prepare for this class, and I'm glad I did because they explained more about the topic than this book - which was the required book for the class. This text does a great job of making a boring and difficult subject even more confusing and frustrating. The My Accounting Lab is a mess, and a lot of the quizzes contain material from later chapters and take hours to find the information for. The eText Pages option during quizzes and homework take you to pages that don't actually cover the material they're supposed to, and my professor actually stopped using My Accounting Lab a third of the way through the semester because the class was having so many difficulties and the help line didn't provide solutions. By far my worst experience with a text book and online lab!

A note to the people complaining about not received the access code when buying used: used books

generally don't come with access to the online labs. Some texts have free websites to accompany their books, but they won't specify having to use an access code to get into those sites. Access code = limited access to those who pay a bunch of money for new editions and codes.

Helpful

By Kruti

I bought this book for my Financial Accounting class at UF. The teacher went over the same concepts as the book, however the book did a much better job in explaining them. It explains the concepts clearly and with great examples that spread across a whole chapter so that you can build upon what you learn step by step. I would recommend it for anyone who doesn't know anything about financial accounting. If you know are knowledgeable in the subject you might want to get something that will go a little deeper into the subject. The reason I am giving it 4 stars instead of 5 is because I do not find the subject to be incredibly interesting, however it accomplishes its goal.

Use for MBA

By Wolf.

This book was a requirement for the Financial Accounting class in my MBA course. I was put off by the price but found it is worth every penny. The overall layout is very logical, each chapter has numerous 'real world' examples and ends with more sample problems than you could ever hope to solve. 'Check Figure' partial solutions are provided in one of several useful appendices.

I started out knowing absolutely nothing about accounting, now I have a firm foundation thanks more to this excellent book than my professor ...

I will never sell this book
