About the Author

Scott J Roberts works for GitHub and makes up his title every time he's asked, so we'll say he's the Director of Bad Guy Catching. He has worked for 900lbs security gorillas, government security giants & boutiques, and financial services security firms and done his best to track down bad guys at all these places. He's released and contributed to multiple tools for threat intelligence and malware analysis. Scott is also really good at speaking in the 3rd person.

Kyle Maxwell is a threat intelligence analyst supporting private sector clients across the globe. He has contributed to several public reports on data breach analysis and frequently speaks & writes at conferences around the United States and Latin America. Previously, he led the incident response team at a large payment processor and performed digital forensics for clients across the United States at several private investigation firms. Mr. Maxwell holds a degree in Mathematics from the University of Texas at Dallas.

Rebekah Brown has spent more than a decade working in the intelligence community; her previous roles include NSA network warfare analyst, Operations Chief of a United States Marine Corps cyber unit, and a U.S. Cyber Command training and exercise lead. Rebekah has helped develop threat intelligence and security awareness programs at the federal, state, and local level, as well as at a Fortune 500 company. Today, Rebekah leads the Rapid7 threat intelligence programs at Rapid7, where her responsibilities include programs architecture, management, analysis, and operations. Rebekah lives in Portland, Oregon, where she grew up, with her three kids and spends her free time hiking and hacking and reading Harry Potter.

INTELLIGENCE-DRIVEN INCIDENT RESPONSE: OUTWITTING THE ADVERSARY BY SCOTT J ROBERTS, KYLE R MAXWELL, REBEKAH BROWN PDF

Threat intelligence—understanding the who, why, and how of attacks—is most valuable when applied directly to an organization’s incident response capability for hunting and investigation. Threat intelligence has become more common and important in recent years. However, many professionals want a better understanding of how to apply this intelligence within their operations and organizations. This book explains the fundamentals of intelligence analysis and the best ways to apply it to your incident response function.
