I weave, knit, sew but crochet has always confused me! I am in the process of making the caravan and so far I am feeling confident about crocheting! I am living and traveling in a camper/caravan so this project is especially fun. I am in the US and here's what I am using: Grace by Patons which is a mercerized cotton.; tacky glue for construction; sugar & cream cotton for interior accessories. I will be consulting the author's errata page because I can't figure out how and when to attach the front but other than that the directions have been excellent. Thank you, Kate Burning for getting me crocheting at last!

By QuiltShopGal

This book has amazing designs that are cute to decorate a table or shelf, but absolutely perfect to help develop a young mind for imagination and creativity. There are so many projects, from camper, boats, tents, sleeping bags, picnic blankets, as well as plenty of camping accessories. All of the instructions are well written and easy to follow and also include great visuals. For those new to crochet, there is a introduction section that is perfect for beginners. When you look at all the designs, plus tips from the author, the low price of this book, it really works out to be an exceptional value. Absolutely adorable designs

Tiny crochet cuteness!!! Fun to make, style and play with

By Stefanie G.

This book is so cute! The size of the book is little and fits the cute little projects featured in it. The styling of the projects is inspiring as well as the projects themselves. The projects will inspire play for little ones as well as for adults to style and enjoy making. My favorite project is the vintage style camper and all the little accessories. I am also going to make the tiny clothing accessories for dolls.
