Great Review - Light on Path

By Christy L. Nolan

The book was wonderful for a quick Anatomy, Embryo, Histo, Phys and Biochem review. Basically it's good for everything but Path. And lets face it - most of us use Goljan Rapid Review for that. If you have used or like the Kaplan lecture series books, this will work for you. Its a high yield review of lecture material in Kaplan mainly in chart format. Its main advantage over FA is the use of pictures that help to illustrate the anatomy and embryology. I love it and have pushed FA2008 aside in favor of this book. In quick review - you WILL need a different Path review book, but this is more detailed and better as a high yield review of general info!

A good review book

By L. H

I have to disagree with the reader who gave this book one star review. This is a REVIEW book, not a text book. It's true all the tables, diagrams and illustrations come from Kaplan lecture note(the note alone sell for \$600, you may get them used from ebay for \$300), but medessential picked out only the highest yield material from these notes to include in this comprehensive review book. I only studied Kaplan and Goljan patho and got 234(98)(I will try to upload my score sheet here). I didn't like FA myself, b/c it's too boring and it's just piles of disorganized facts, there is no comparison like Kaplan did.

I suggest you visit your local Barnes and noble to read this book first before making the purchase and see if it suit your style.

I graduated from medical school 13 years ago from another country, just passed my step 1 last year, Kaplan and Goljan definitely are critical to my success.

Good luck for your boards!

Great supplement to First Aid

By Rupam Das

Medessentials is a great book. Slightly more detailed with better charts compared to First Aid. Both books though have information not contained in the other, while a large majority is in both. I would recommend any first years considering books for studying for Step 1 for their second year to consider buying this and using both First Aid and Medessentials together (annotating 1 or both of them) as you go through your courses/review throughout the year making the 4-8wks/study before boards easier.
