I was not disappointed by this book

By No

I was not disappointed by this book. I have read Mike Leon's other books and they are all pretty good but this one is pretty much the best. It really shows that the author is growing as a writer and and he is really comfortable in the authors shoes. First off, he toned down some of the violence that other reviewers complained about in "Kill Kill Kill" but honestly I didn't have an issue with that given the title I expected mega violence. This feels like a movie. Flat out action from the 90's with a touch of great characterization.

With that out of the way just pick it up. You will have a good time with a fast read.

A winner for sure

By Ollie Ray

Wow, this book really keeps the pace when it gets good. Beginning is a bit on the site side I admit, but it gets better, and better, and finishes off well. This is your usual slasher book with good characters and suspense. It doesn't have too many plot twists that make you roll your eyes until you're dizzy, but it fits have some excellent cliffhanger situations that keep you interested. Mike Leon, you did a fine job here.

Another solid choice.

By S. Thaman

Mike Leon does it again. Just like Kill Kill Kill, this book has it all. The characters were believable and had great depth, the plot never left me bored, and the movie theme was brilliantly executed and did well to enhance the action. I look forward to reading the next installment in the series.
