THE AMERICAN NATION: A HISTORY OF THE UNITED STATES BY MARK C. CARNES, JOHN A. GARRATY PDF

Every chapter in the 11th edition of American Nation contains one of three special features: an essay on a Hollywood movie's version of History, a grouping of maps on a central topic in the chapter with accompanying explanatory text or a biographical account of a major or representative person. Because ours is a visual age, the book has also been reworked to include hundreds of pictures and artwork that accompany the text and enhance the narrative. The 11th edition of this textbook covers American History from the first Native Americans to reflections on a post 9-11 world.

Decent review of American History

By J. Watts

We used this book for my AP US history class. It is a decent text, but it often focuses on off topic things such as the color of a president's eyes or the geneology of his wife. (And I mean for the not so important wives, not like JFK's.) Also, Garraty's obsession with Keneysian economics becomes apparent starting in chapter 20. It is a decent text, rather bland as most texts come, but it drove me nuts to read it as I began. His liberal standpoint is obvious if you overlook the extreme brevity of his coverage of the Trail of Tears and the lack of content based on slavery. (There is a lot but not as much as demanded on the AP US test.)

American Nation

By Abigail J. Embry

I would have liked to know that there was writing on the cover/sides of the book. It works very well for the purpose i use it. It arrived promptly and I was able to use it right away.
