I Need MORE!!!

By Alexandra

I have to believe that it takes some serious talent and skill to create not only ONE book that leaves the reader begging for more, but this author managed to do so with an entire series effortlessly! I purchased the series based on a friend's recommendation to not bother buying each book separately because I would want them all anyway, so I did. Apparently my friend is not only good-looking but she's a genius too! These books are addictive! I thought "Come Undone" was quickly engaging - you definitely begin to see the dynamics of Olivia's marriage (and the strains within) right from the start. Of course, once David is introduced, it only gets better and you find yourself panting and sweating and reading with your mouth hanging open - but maybe that was just me, and I'd happily do it all over again! "Come Alive" was nothing but heart-wrenching and yes, even a little frustrating because Olivia has such a tendency to overthink, self-blame and feel "the worst" in everything, which I guess is not unnecessarily uncommon, as I would do it too - I guess that's another reason why each of these books draw you in and make you feel every emotion she is going through, it's very realistic, and in terms of her own emotional struggles, they stem from her childhood and you really see how often, our own choices are so defined by our upbringing (whether we may like to admit it or not!). I should also say the author incorporated the supporting storylines beautifully! everything blends in smoothly and you get to know the other characters and even hope for certain outcomes throughout the books. Finally, in "Come Together" there is of course, much of the excitement and heart-warming wrapping up of "loose ends", which leave you wanting more - of everything. I know that while there is much to dislike about the overall topic of infidelity and divorce, there is something to be said about knowing that even when you've made a terrible decision, you can forgive yourself enough to deem yourself worthy of happiness, even though others may not agree. Also, one can argue that most affairs occur because one person feels there is a "special" draw to another person outside of your marriage, so in some way that would invalidate that in this story, Olivia and David ARE meant to be together, but as this story is written, I think there is so much anxiety and true heart that you just can't help rooting for them because the chemistry is so palpable throughout. This series is beautifully written, with just the right amount of everything from humor to anguish to the red-hot, enviable sexual chemistry. I highly recommend this series, while warning the reader that you should not expect to sleep due to an unavoidable reading marathon that will occur once you start reading, and you will not mind at all!

Emotional.. Raw.... and Sexy... AMAZING book....

By Aubrey

This actually a 4 1/2 star book for me, but Amazon does not allow halves... I was a little hesitant as I am not one for the whole adultery story line, but I absolutely fell in love with Olivia and David. Olivia thinks she has everything she needs and wants: an up and coming career, a good husband who loves her and friends and family she adores. However, when she meets David just one look on my random night was all it took for her to start realizing just maybe she was meant for more, to have more. David and Olivia's journey was emotional, raw, erotic and felt real. Without giving too much away, I was a little disappointed in the path Olivia's husband, Bill, takes and the direction his character went. I personally thought Olivia could have found her happiness without making Bill turn into an even bigger ass. However, I really enjoyed this series and have a serious book hangover... So much so i am stuck on what to try to read next, because I cannot stop thinking about these books.

Seriously - Best Series of 2013!!!

By Holly from FierceandFabulousBookDiva

Do yourself a favor and buy this set. I've read hundred (maybe thousands) of romance novels and I have never been as hooked as I am with this. I MADE people I work with read this just so I could have people to talk about it with. They got just as hooked as I was. We're going to have to make a David Dylan support

group just to function.

This isn't a book. It's not a series either. This is an obsession. It's an addiction. I got book 1 - come undone - as an ARC copy through Netgalley. I planned to write an honest review for it, but felt sure it would be negative. I read the description and thought for sure that this was not MY kind of book. I read the first few pages and thought that I wasn't sure I even liked Olivia - the main character. By the time I got to chapter 3, though, I was hooked. It wasn't my story, but it hit home. I could connect with the characters, the feelings, the concept. I finished book 1 at 1am and HAD to get book 2 and start reading straight away even though I had to get up for work the next morning. Once I finished book 2, I stayed up all night long to finish book 3. THEN I restarted. I have read this entire trilogy twice in a week and I really want to read it again! Seriously, this is an obsession! I don't think it's possible to fall in love with a fictional book character, but who knows lol. David Dylan - ahhhhhhh. Definitely wins the award for best male lead!!

There's nothing else I can say. This is a MUST read for anyone that even remotely likes romance novels. If I never read another book, but still had these, I would be ok.
