Review

By Ryan J O'Toole

My girlfriend loves space and loves books with the pictures of everything that's out there very clear and high resolution photos

0 of 0 people found the following review helpful.

great book

By Magicbuyer1

This book covers the basic of astronomy and is the perfect book for anyone interested in the basic knowledge of the subject.

0 of 1 people found the following review helpful.

astronomy class

By Giustina Bianca

This book was required for a local astronomy class. Don't bother with this book. The information is extremely basic. There are many books available that cover the topic much better.
