What are the core elements that allow top performers to achieve success repeatedly? One clear, positive thought can set a goal in bedrock or trigger peak performance. Study 3 easy fundamentals, make them a habit, and you have a recipe for sustained success no matter what hurdles life throws at you. This is a story of a small boy, scared and alone in the world, who ran away from home at 16, and overcame numerous hostile environments to pursue his dream to become a Navy SEAL, and eventually became the Naval Special Warfare sniper course manager (head) instructor. The lessons learned along the way were powerful. When I was part of the sniper instructor cadre, we studied the habits of champions, and top performers. Then we applied them to our course curriculum and students. The results were incredible and undeniable. The Power of Thought works.

I thought it might help me be a better instructor/professor of chemistry

By Ken Patty French

I was inspired to read this book by seeing the author on TV discussing it. Since I am an educator and former army officer, I thought it might help me be a better instructor/professor of chemistry. It made me more aware that my negative thoughts towards certain students might hinder their progress. I learned some things I needed to know and gained more respect for the author and his ideas. Despite a rough childhood and a huge business setback resulting in a divorce, he handled these major hurts like a man to be admired and emulated. I hope I recall his example if I ever face such trials. He is serious, honest, open about his issues. To me he really exhibits valor, both in war and in civilian life, where it is still very much needed!

I highly recommend this book.

A \$10 Blog Post

By dhoby-ghaut

I think The Red Circle (TRC) is five star. I heard an excerpt from this book on on SOFREP Radio and really enjoyed it. Unfortunately, the books is about 50% excerpts from TRC and 50% freestyle writing. I feel a bit betrayed honestly: I gave the author \$10 for a blog post. (The book is 52 pages and a big chunk of that is cut and paste from his prior book.)

That said, I highly recommend The Red Circle. It's excellent.

I'll Try to Be Respectful...

By Tahoe Topher

This book was a total ripoff. Left me save you the cost of the book with this summary: Self-talk is very important, encourage yourself by saying, "I can do this!" And you'll be far more successful. The author talks about "...doing what any SEAL would do, exceed expectations." Well, I truly feel like all I learned was how to line the author's pockets. All I can say is, thank you so much for your service.
