From School Library Journal

Grade 6–9—High school freshman Cooper Warner's stepfather makes his life miserable, and his English-teacher father only seems to care about how well he does on his Hamlet paper. But these problems pale in comparison with the biggest one of all: his mother is trying to kill him. At the beginning of the story, she pushes him into a slimy old well on the vineyard property owned by her new husband. As Cooper tries to escape, he begins to realize that a hideous creature is toying with him, hungry for his blood. Cooper makes it out of the well, but the creature is determined to hunt him down and force him to take its place, and it has enlisted the help of his stepfather and his seemingly possessed mother. Cooper tries to enlist his girlfriend's help, but when the creature abducts her, and then uses her and his brother as bait, Cooper realizes that he is intended to be a sacrifice for the continued fertility of the land and that he will have to confront the monster. The author claims to have been inspired by Hamlet, but the connection with Shakespeare's play is tenuous at best. The story has a few good touches, as when the creature possesses Cooper's MySpace page, but there are too many plot holes and too much is left unexplained. The adult characters are clichés, and the numerous pop culture and product references guarantee that this book will date quickly.—Kathleen E. Gruver, Burlington County Library, Westampton, NJ

Or, several additionally like reading this book [The Well By A. J. Whitten](#) because they truly need to read this book. It can be the one that really like reading.

## THE WELL BY A. J. WHITTEN PDF

If Hamlet thought he had issues, he should have talked to Cooper Warner.

His mother's normally sunny demeanor has turned into something—homicidal.

And what's worse, she has help in her hunt for Cooper: A ravenous monster living at the bottom of the old well in the woods behind their house. She's determined to deliver her 14-year-old son straight into the creature's eager clutches. Cooper turns to his girlfriend, Megan, for help, but then, to his horror, the creature takes her prisoner.

Now, it's up to Cooper to fend off his murderous mother, finish his Hamlet paper, and enter the putrid lair at the bottom of the well to rescue Megan. And when he confronts the creature, Cooper must make the toughest decision of his life: kill, or be killed.

Inspired by Hamlet, *THE WELL* puts a terrifying twist on the Shakespearean classic.

Shakespeare Connection?

By Sesho

A.J. Whitten is a pseudonym for mother and daughter writing team Shirley and Amanda Jump. Shirley is a prolific romance writer and her daughter is, well, a teenager. This does not bode well for a novel when you have a combo of a hack and an inexperienced girl narrating a story. The parts where Cooper has to deal with the creature in the well come off quite well, being equal parts creepiness and fear. I guess I would have to give Shirley credit for those parts. As for the lame cultural references and feeble attempts to be "teen-hip" with the dialogue, I would lay that solely at the feet of Amanda. Though the bookjacket references Hamlet quite heavily, the two authors are never really able to bring Shakespeare into the book with any significant rhyme or reason. Cooper happens to be reading Shakespeare and there just happens to be a novel happening so they should go together, right? right? Something else that grated on my nerves a bit was Cooper's inability to get anyone to help him. The only cop interested in the goings on is an alcoholic that can barely put one and one together, much less face a supernatural force. All in all, the book was a decent read, but the ability of its writers ultimately doomed it to mediocrity.

Been sitting on my bedside table for MONTHS...

By Doc Occula

...and I've only gotten about thirty pages in...and I have a bad feeling I'll never get any further. Bad sign. Very bad sign, Shakespeare-flavored storyline or no!

Hard, hard, hard to get through...

By Suzanne Fisher

I've had this sitting by my bedside table, on my kitchen table, and on my desk for about 6 months now. I've read it off and on, and finally plowed through it today to knock out this review. There've just always been...more interesting things to do. *The Well* is supposed to be a suspenseful book for middle- to high-schoolers, but instead of suspenseful, it is predictable and falls on the slasher flick side rather than the Shyamalan side of horror.

The youth interested in suspense and horror at this age are more likely to be reading Stephen King already, and some of the subject matter in this book does not make good reading for younger readers, see SPOILERS BELOW\*\*\*\*\*

i.e. brains spilled on the ground, pus-filled skin, baby-eating monsters, murdering moms.....

At any rate, this might be a good library rental for those older readers who are intrigued by the concept, but check it out before buying.
